Dear Mr. Hopfensperger,

Thank you for your letter and the question about our medical device Andumedic.

This device is developed for people with chonical diseases. Therefore we have evaluated the physiological effects on microcirculation, lymphatic flow, muscle tension and relaxation. These are the main facts for emergence of chonical diseases, proofed by our investigations.

The evaluated significant positive influence on the main organic functions can cure chonical diseases.

The medical products of hhp AG get the official license of an medical product Typ IIa in Germany.

Official documents can be added if necessary.

Kind regards

Prof. Dr. Roland Stutz
